Learn how to navigate the complexities on the journey toward IFRS

More than ever, companies are recognizing the need to develop core capabilities and resources for addressing IFRS and its potential impact on the organization. Equipping finance professionals with essential knowledge and skills to apply and interpret IFRS consistently throughout the organization is critical to the success of any IFRS effort.

This two-day intensive IFRS executive training covers both practical and strategic implications of IFRS conversion, including technical accounting changes, tax considerations, valuation issues, and technology and systems questions. Taught by experienced Deloitte IFRS leaders, our training will also address key differences between U.S. GAAP and IFRS for several accounting topics, including the first time adoption of IFRS. Designed to help prepare finance professionals for the real-world application of IFRS, this program includes a combination of lectures and real-life case studies for a deeper understanding of the topic.

Join us for an interactive learning experience that provides leading tools and resources to help enhance your understanding of what IFRS means for your organization. Broaden your understanding of the standards, and deepen your capability to address complex IFRS issues effectively and efficiently.

Two-day IFRS executive training agenda

Day 1 8:00 a.m. – 5:00 p.m.

- Current IFRS landscape
- · Revenue recognition and inventory
- Financial instruments, derivatives, hedging and downstream implications investments
- Employee benefits and share-based payments
- Income taxes, tax implications when converting to IFRS, provisions and contingent assets and liabilities
- · Long-lived assets and impairments

Day 2 8:00 a.m. – 5:00 p.m.

- Consolidation, associates and joint ventures
- Business combinations and discontinued operations
- Intangible assets, including development costs, and leasing
- Practical suggestions for organizing a cost-effective IFRS effort
- First-time adoption and financial statement presentation
- IFRS adoption: steps to implementation and downstream implications
- Typical system and process issues

Course content information

Instructional delivery method	Group-live
Learning objectives	In this intensive two-day session, the participants will learn about key accounting issues and practical considerations related to IFRS implementation. After the session, the participants will be able to explore IFRS and US GAAP differences for several accounting areas, understand the overview of regulatory environment, convergence efforts to IFRS, tax and technology implications when converting to IFRS, steps to implementing IFRS, downstream implications and lessons learned by Deloitte IFRS leaders. This program will help broaden the understanding on IFRS and what it means for their organization.
