Agenda Consultation

FASB Solicits Feedback on Agenda Consultation

Affects: All entities.

Summary: On August 4, 2016, the FASB issued an [invitation to comment](#) to solicit stakeholder feedback on which financial accounting and reporting topics should be added to the FASB's agenda. The invitation to comment was developed on the basis of an annual survey, conducted by the FASAC, that sought feedback from stakeholders on what the Board's future standard-setting priorities should be. Topics that the invitation to comment identifies as warranting particular attention include:

- Intangible assets, including research and development.
- Pensions and other postretirement benefit plans.
- Distinguishing liabilities from equity.
- Reporting performance and cash flows.

Next Steps: Comments are due by October 17, 2016. Public roundtable meetings on the invitation to comment are expected to be held in the fourth quarter of 2016.

Other Resources: For more information, see the [press release](#) on the FASB's Web site.

Financial Statement Presentation

FASB Proposes Concepts Statement on Presentation

Affects: All entities.

Summary: On August 11, 2016, the FASB issued an [ED](#) of a proposed concepts statement that would add a new chapter (Chapter 7) on presentation of financial information to the Board's conceptual framework for financial reporting. The new chapter would address the information that entities should include in their general-purpose financial statements as well as "how appropriate presentation can contribute to achieving the objective [footnote omitted] of financial reporting." The FASB plans to use the information in this chapter as a basis for developing future presentation requirements.

Next Steps: Comments on the ED are due by November 9, 2016.

Other Resources: For more information, see the [press release](#) and [FASB in Focus](#) newsletter on the FASB's Web site.

Not-for-Profit Entities

FASB Issues ASU on Not-for-Profit Financial Statements

Affects: NFPs.

Summary: On August 18, 2016, the FASB issued [ASU 2016-14](#), which simplifies how an NFP (1) classifies net assets and (2) presents information in financial statements.

The purpose of the ASU is to improve “presentation and disclosures to help not-for-profits provide more relevant information about their resources (and the changes in those resources) to donors, grantors, creditors, and other users.” According to the *FASB in Focus* newsletter on the ASU, the new standard addresses:

- “Complexity and understandability of net asset classifications.”
- “Deficiencies in information about liquidity and availability of resources.”
- “Lack of consistency in the type of information provided about expenses and investment return.”
- “Misunderstandings about and opportunities to enhance the utility of the statement of cash flows.”

Next Steps: The ASU is effective for annual reporting periods beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. Earlier application is permitted for an annual fiscal period or for the first interim period within the fiscal year of adoption.

Other Resources: For more information, see the [press release](#), *FASB in Focus* newsletter, [cost-benefit analysis](#), and [video](#) discussion of the new standard on the FASB’s Web site.

FASB Proposes Amendments to Consolidation Guidance for Not-for-Profit Entities

Affects: NFPs.

Summary: On August 3, 2016, the FASB issued a [proposed ASU](#) that would amend the consolidation guidance to clarify when an NFP that is a general partner should consolidate a for-profit limited partnership or similar legal entity. The proposal would retain certain guidance that was in ASC 810-20 before the effective date of [ASU 2015-02](#) by including it in ASC 958-810. That guidance requires that an NFP that is a general partner of a for-profit limited partnership be presumed to control the for-profit limited partnership, regardless of the extent of its ownership interest, unless the presumption can be overcome. Like the guidance in ASC 810-20, the proposal indicates that the presumption can be overcome if the limited partners have either substantive kick-out rights or substantive participation rights.

Editor's Note

ASU 2015-02 supersedes the guidance in ASC 810-20, thereby eliminating the presumption of control by the general partner, and adds new guidance to the general subsection of ASC 810-10 on when limited partners should consolidate a legal entity. This guidance presumes that a reporting entity would first navigate through the variable interest entity (VIE) subsection of ASC 810-10 before applying the guidance in the general subsection. However, since NFPs are generally outside the scope of the VIE subsection and the general subsection of ASC 810-10 (as amended by ASU 2015-02) does not address when a general partner should consolidate a limited partnership, questions have arisen regarding the application of the consolidation guidance to NFPs after the effective date of ASU 2015-02. The proposed ASU would resolve these questions by retaining the guidance in ASC 810-20 for NFPs and including it in ASC 958-810.

Next Steps: Comments on the proposed ASU are due by October 3, 2016.

Statement of Cash Flows

FASB Issues ASU on Cash Flow Classification

Affects: All entities.

Summary: On August 26, 2016, the FASB issued [ASU 2016-15](#), which amends the guidance in ASC 230 on the classification of certain cash receipts and payments in the statement of cash flows. The primary purpose of the ASU is to reduce the diversity in practice that has resulted from the lack of consistent principles on this topic. The ASU's amendments add or clarify guidance on eight cash flow issues:

- Debt prepayment or debt extinguishment costs.
- Settlement of zero-coupon debt instruments or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing.
- Contingent consideration payments made after a business combination.
- Proceeds from the settlement of insurance claims.
- Proceeds from the settlement of corporate-owned life insurance policies, including bank-owned life insurance policies.
- Distributions received from equity method investees.
- Beneficial interests in securitization transactions.
- Separately identifiable cash flows and application of the predominance principle.

Next Steps: For public business entities, the guidance in the ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities, it is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted for all entities. Entities must apply the guidance retrospectively to all periods presented but may apply it prospectively from the earliest date practicable if retrospective application would be impracticable.

AICPA

AICPA Issues Working Drafts on Revenue Recognition Issues for the Telecommunications Sector

Affects: Entities in the telecommunications sector and their auditors.

Summary: On August 1, 2016, the AICPA's Telecommunications Entities Revenue Recognition Task Force released for public comment working drafts on the following topics associated with the implementation of the FASB's new revenue standard, ASC 606, in the telecommunications sector:

- [Portfolio accounting](#) — Topics addressed include definitions and scope, evaluating the concept of “similar characteristics”; the meaning of “not differ materially” and when entities should assess it; allocation of the transaction price to multiple performance obligations under a portfolio approach; applying guidance on contract modifications, contract costs, and financing components to contract portfolios; and considerations related to presentation and disclosures, including disclosures about disaggregation of revenue.
- [Contract costs](#) — Discusses costs of obtaining and fulfilling a contract that are eligible for deferral, the amortization period for deferred contract costs, and the evaluation of impairment for deferred contract costs. This working draft also includes a number of examples illustrating the concepts it covers.

Next Steps: Comments on the working drafts are due by October 1, 2016.

OCC Updates Bank Accounting Advisory Series

Affects: Banking entities.

Summary: On August 18, 2016, the OCC released an [update](#) to its Bank Accounting Advisory Series (BAAS), which “expresses the office's views on accounting topics relevant to national banks and federal savings associations.” The August 2016 update of the BAAS contains revisions related to the following topics:

- Contingencies.
- Fair value accounting.
- Deferred taxes.
- Transfers of financial assets and servicing.
- Acquisitions.

Defined Benefit Plans

Employers' Accounting for Defined Benefit Plans — Alternatives for Applying Discount Rates in the Measurement of Benefit Cost Under a Bond-Matching Approach

Affects: All entities.

Summary: Some companies develop their discount rate assumption for measuring the projected benefit obligation or accumulated projected benefit obligation by using a bond-matching approach (sometimes also referred to as a hypothetical bond portfolio or a bond-model approach). In light of the SEC staff's recent acceptance of the use of a spot rate approach for measuring interest cost by entities that develop their discount rate assumption by using a yield curve approach, entities and actuaries have been exploring whether other acceptable methods similar to the spot rate approach could be developed for entities that use a bond-matching approach to measure their defined benefit obligation.

In an August 2, 2016, meeting with representatives of the Big Four accounting firms and a large actuarial firm, the SEC staff stated that it objected to a proposed approach to adapting bond matching that would facilitate the use of a spot rate method for measuring interest cost. Under this approach, the implied spot rates at each maturity that are present in the entity-specific hypothetical bond portfolio for the measurement of the interest cost component of net periodic benefit cost would be derived and used in a manner similar to the spot rate approach.

FASB Releases Proposed 2017 Financial Reporting Taxonomy for Public Comment

Affects: All entities.

Summary: On September 1, 2016, the FASB released for public comment its proposed 2017 U.S. GAAP [financial reporting taxonomy](#), which "contains updates for accounting standards and other recommended improvements."

Next Steps: Comments on the proposed taxonomy are due by October 31, 2016. The final taxonomy is expected to be approved by the SEC in early 2017.

FASAB

FASAB Issues Guidance on Establishing Opening Balances for General Property, Plant, and Equipment

Affects: Entities applying federal financial accounting standards.

Summary: On August 4, 2016, the FASAB issued [Statement 50](#), which amends its existing standards to permit entities that meet certain criteria “to apply alternative methods in establishing opening balances for general property, plant, and equipment (PP&E).” Such alternative methods would include “(1) using deemed cost to establish opening balances of general PP&E, (2) selecting between deemed cost and prospective capitalization of internal use software, and (3) allowing an exclusion of land and land rights from opening balances with disclosure of acreage information and expensing of future acquisitions.”

Next Steps: Statement 50 is effective for periods beginning after September 30, 2016. Early adoption is encouraged.

Other Resources: For more information, see the [press release](#) on the FASAB’s Web site.

GASB

GASB Proposes Guidance on Certain Debt Extinguishment Issues

Affects: Entities reporting under financial accounting and reporting standards for state and local governments.

Summary: On August 29, 2016, the GASB issued an [ED](#) that governmental entities “would apply when extinguishing debt prior to its maturity.” Specifically, the proposal would provide guidance on “transactions in which only existing resources are placed in a trust for the purpose of extinguishing debt.”

Next Steps: Comments on the ED are due by October 28, 2016.

SEC

SEC Proposes Rule on Exhibit Hyperlinks

Affects: SEC registrants.

Summary: On August 31, 2016, the SEC issued a [proposed rule](#) that would “require registrants that file registration statements and periodic and current reports that are subject to the exhibit requirements under Item 601 of Regulation S-K, or that file on Forms F-10 or 20-F, to include a hyperlink to each exhibit listed in the exhibit index of these filings.” In addition, the hyperlinks must be in HTML format.

Next Steps: Comments on the proposed rule are due 45 days after the date of its publication in the *Federal Register*.

SEC Issues Final Rule Granting Regulatory Access to Data Held by Security-Based Swap Data Repositories

Affects: SEC registrants.

Summary: On August 29, 2016, the SEC issued a [final rule](#) that amends Rule 13n-4 of the Securities Exchange Act of 1934 to give certain regulators and other authorities access to security-based swap data repositories. Specifically, the final rule:

- Requires “either a memorandum of understanding or other arrangement between the Commission and the recipient of the data to address the confidentiality of the security-based swap data provided to the recipient.”
- Identifies “the five prudential regulators named in the statute, as well as the Federal Reserve banks and the Office of Financial Research, as being eligible to access data.”
- Addresses “factors that the Commission may consider in determining whether to permit other entities to access data.”

Next Steps: The final rule will become effective on November 1, 2016.

Other Resources: For more information, see the [press release](#) on the SEC’s Web site.

SEC Issues Final Rule for Investment Advisers

Affects: SEC registrants.

Summary: On August 25, 2016, the SEC issued a [final rule](#) to improve the reporting and disclosure requirements for investment advisers. Specifically, the final rule amends:

- Form ADV to (1) require investment advisers to disclose additional information (e.g., about their “separately managed account business”), (2) include an approach under which “private fund adviser entities operating a single advisory business” can use a single Form ADV to register, and (3) make certain technical corrections to “Form ADV items and instructions.”

- Investment Advisers Act rules to (1) require advisers to maintain additional records of performance-related calculations and communications and (2) “remove transition provisions that are no longer necessary.”

Next Steps: The final rule will become on October 31, 2016, and advisers will need to begin complying with the amendments on October 1, 2017.

Other Resources: For more information, see the [press release](#) on the SEC’s Web site.

SEC Requests Comments on Certain Regulation S-K Disclosure Requirements

Affects: SEC registrants.

Summary: On August 25, 2016, the SEC published a [request for comment](#) as part of its disclosure effectiveness initiative. The request for comment seeks feedback on certain disclosure requirements in Subpart 400 of Regulation S-K related to management, certain security holders, and corporate governance matters. The Commission plans to take the comments received into account when developing its study on Regulation S-K, which is required by the Fixing America’s Surface Transportation Act.

Next Steps: Comments are due by October 31, 2016.

Appendix A: Current Status of FASB Projects

This appendix summarizes the objectives,¹ current status, and next steps for the FASB's active standard-setting projects (excluding research initiatives).

Project	Description	Status and Next Steps
Recognition and Measurement Projects		
Accounting for financial instruments — hedge accounting	The purpose of this project is to “make targeted improvements to the hedge accounting model based on the feedback received from preparers, auditors, users and other stakeholders.”	The Board is deliberating targeted improvements to the hedge accounting model under U.S. GAAP. At its June 29, 2015; October 7, 2015; March 23, 2016; and July 13, 2016, meetings, the Board made a number of tentative decisions that would significantly modify certain aspects of the existing hedge accounting model. At its July 13, 2016, meeting, the Board (1) made tentative decisions about a number of issues identified by the staff during outreach and (2) authorized the staff to draft a proposed ASU for a vote by written ballot. The proposed ASU is expected to be issued during the third quarter of 2016 for a 75-day comment period. For more information, see Deloitte’s June 30, 2015 ; October 16, 2015 ; March 28, 2016 ; and July 14, 2016 , journal entries.
Accounting for goodwill impairment	The objective of this project is to “reduce the cost and complexity of the subsequent accounting for goodwill by simplifying the impairment test . . . by removing the requirement to perform a hypothetical purchase price allocation when the carrying value of a reporting unit exceeds its fair value (step 2 of the impairment model in current GAAP).”	On May 12, 2016, the FASB issued a proposed ASU that would simplify the subsequent measurement of goodwill by removing the requirement to compare the implied fair value of goodwill with its carrying amount. Under the proposed amendments, “an entity would perform its annual, or any interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount.” The proposed ASU would also remove existing special requirements for reporting units with a zero or negative carrying amount. Comments on the proposal were due by July 11, 2016. On June 20, 2016, the Board discussed this project at a joint meeting with the IASB; however, no decisions were made. For more information, see Deloitte’s May 24, 2016, Heads Up .
Accounting for identifiable intangible assets in a business combination for public business entities and not-for-profit entities	The purpose of the project is to “evaluate whether certain intangible assets should be subsumed into goodwill, with a focus on customer relationships and noncompete agreements.”	At its October 28, 2015, meeting, the FASB staff updated the Board on its research related to the initial recognition of customer-relationship intangible assets and noncompetition agreements. The Board decided to continue the project and directed the staff to perform additional research.

¹ The quoted material related to the projects’ objectives is from the respective project pages on the FASB’s Web site.

Accounting for income taxes: intra-entity asset transfers	The purpose of this project is to “simplify certain aspects of ASC 740 related to intra-entity differences between the tax basis of the assets in a buyer’s tax jurisdiction and their cost as reported in the consolidated financial statements.”	On January 22, 2015, the FASB issued an ED that proposes (1) “to eliminate the exception in GAAP that prohibits recognizing current and deferred income tax consequences for an intra-entity asset transfer until the asset or assets have been sold to an outside party” and (2) “that an entity recognize the current and deferred income tax consequences of an intra-entity asset transfer when the transfer occurs.” Comments on the ED were due by May 29, 2015. At its June 15, 2016, meeting, the FASB tentatively decided to proceed with the proposed amendment to remove the exception in ASC 740 that prohibits the immediate recognition of the tax consequences (both current and deferred) of intra-entity asset transfers, except for transfers of inventory. In addition, the Board decided what the final ASU’s effective date will be and to permit early adoption. Further, the Board authorized the staff to draft a final ASU, which is expected to be issued in the third quarter of 2016. For more information, see Deloitte’s June 16, 2016, journal entry .
Accounting for interest income associated with the purchase of callable debt securities	This project aims “to enhance the transparency and usefulness of the information provided in the notes to the financial statements about interest income on purchased debt securities and loans” and “will also consider targeted improvements regarding the accounting for the amortization of premiums for purchased callable debt securities.”	At its March 18, 2015, meeting, the FASB added this project to its agenda. On September 16, 2015, the Board tentatively decided that for purchased callable debt securities, (1) premiums would be amortized to the first call date and (2) discounts would be amortized to the maturity date. At its July 27, 2016, meeting, the Board tentatively decided that the scope of the amortization change for premiums would include all callable debt securities except for beneficial interests in securitized financial assets subject to ASC 325-40. The Board directed the staff to draft a proposed ASU for a vote by written ballot. The proposed ASU, which will have a 45-day comment period, is expected to be issued in the fourth quarter of 2016. For more information, see Deloitte’s March 23, 2015 ; September 17, 2015 ; and July 28, 2016 , journal entries.
Accounting for service concession arrangements (EITF Issue 16-C)	The purpose of this project is to resolve diversity in practice related to the accounting for service concession arrangements.	The Board added this project to its agenda on August 31, 2016, and referred it to the EITF.
Clarifying the definition of a business (phase 1)	The purpose of this project is to “clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses.”	On November 23, 2015, the FASB issued a proposed ASU to help entities evaluate whether to account for transactions as acquisitions (or disposals) of assets or as businesses. Under the proposal, “to be considered a business, a set [of assets and activities] must include, at a minimum, an input and a substantive process that together contribute to the ability to create outputs.” Comments on the proposal were due by January 22, 2016. For more information, see Deloitte’s December 4, 2015, Heads Up . On August 24, 2016, the Board affirmed several of its prior decisions and decided to make certain clarifications.

<p>Clarifying the scope of ASC 610-20 and accounting for partial sales of nonfinancial assets (formerly clarifying the definition of a business phase 2)</p>	<p>The purpose of this project is to clarify the scope of ASC 610-20 and the accounting for partial sales of nonfinancial assets.</p>	<p>On June 6, 2016, the FASB issued a proposed ASU that would amend the guidance on nonfinancial assets in ASC 610-20. The proposed amendments include:</p> <ul style="list-style-type: none"> • Clarifying the scope of ASC 610-20 to indicate that it applies to “the derecognition of all nonfinancial assets and in substance nonfinancial assets unless other specific guidance applies.” • Stipulating that “a distinct nonfinancial asset would be the unit of account for applying the nonfinancial asset derecognition guidance.” • Providing guidance on accounting for partial sales of nonfinancial assets.
		<p>Comments on the proposed ASU were due by August 5, 2016. For more information, see Deloitte’s June 14, 2016, Heads Up.</p>
<p>Clarifying when a not-for-profit entity that is a general partner should consolidate a for-profit limited partnership (or similar entity)</p>	<p>The purpose of this project is to clarify when a not-for-profit entity that is a general partner should consolidate a for-profit limited partnership (or similar entity).</p>	<p>On August 3, 2016, the FASB issued a proposed ASU that would amend the consolidation guidance for not-for-profit entities to clarify when a not-for-profit entity that is a general partner should consolidate a for-profit limited partnership or similar legal entity. Comments on the proposal are due by October 3, 2016. For more information, see Deloitte’s August 5, 2016, journal entry.</p>
<p>Conceptual framework: measurement</p>	<p>The objective of the conceptual framework project is “to develop an improved conceptual framework that provides a sound foundation for developing future accounting standards.”</p>	<p>Beginning in 2014, the Board has deliberated measurement concepts, such as methods of determining initial carrying amounts of assets, liabilities, and equity. In addition, the Board has discussed concepts related to measuring changes in carrying amounts.</p>
<p>Consolidation: interests held through related parties that are under common control</p>	<p>The purpose of this project is to address how a single decision maker that is determining whether it should consolidate another entity “should treat indirect interests held by its related parties when the decision maker and its related parties are under common control.”</p>	<p>On June 23, 2016, the FASB issued a proposed ASU related to the evaluation of whether a single decision maker is the primary beneficiary (PB) of a variable interest entity (VIE) when it holds indirect interests through related parties that are under common control. Comments on the proposal were due by July 25, 2016.</p> <p>On August 24, 2016, the Board discussed a summary of comments received and decided that when determining whether a single decision maker is the PB of a VIE, the single decision maker will no longer be required to consider indirect interests held through related parties that are under common control with the single decision maker to be the equivalent of direct interests in their entirety. Instead, the single decision maker will include such interests on a proportionate basis. Further, the Board decided that the guidance will be effective for public business entities for annual periods beginning after December 15, 2016, including interim periods within those periods. For all other entities, the ASU will be effective for annual periods beginning after December 15, 2016, and interim periods within annual periods beginning after December 15, 2017. The Board directed the staff to prepare a final ASU for a vote by written ballot. The FASB expects to issue a final ASU in the fourth quarter of 2016. For more information, see Deloitte’s June 27, 2016, and August 30, 2016, journal entries.</p>

Insurance: targeted improvements to the accounting for long-duration contracts	The purpose of this project is to “develop targeted improvements to insurance accounting. Those improvements may address recognition, measurement, presentation, and disclosure requirements for long-duration insurance contracts.”	At its February 24, 2016, meeting, the Board tentatively decided to require insurers to separately present (1) the carrying amount of the liability for market risk benefits in the statement of financial position and (2) changes in the fair value of that liability (excluding changes in an entity’s own credit) in the statement of operations. The FASB also tentatively approved proposed disclosure requirements related to (1) liabilities for future policy benefits, (2) policyholder account balances, (3) market risk benefits, (4) separate account liabilities, and (5) deferred acquisition costs. On March 23, 2016, the Board approved transition methods for the aforementioned disclosure requirements. On August 31, 2016, the Board directed the staff to draft a proposed ASU for a vote by written ballot. The proposed ASU is expected to be issued during the third quarter of 2016 for a 75-day comment period. For more information, see Deloitte’s November 20, 2014 ; February 19, 2015 ; July 24, 2015 ; September 17, 2015 ; October 29, 2015 ; November 20, 2015 ; February 26, 2016 ; and March 25, 2016 , journal entries.
Liabilities and equity: targeted improvements	The purpose of this project is to “simplify the accounting guidance related to financial instruments with characteristics of liabilities and equity.”	On September 16, 2015, the Board tentatively decided to replace (1) the existing guidance on “down round” features in ASC 815-40 with a new accounting model and (2) the indefinite deferrals in ASC 480-10 with scope exceptions that have the same applicability. At its July 19, 2016, meeting, the PCC recommended that the Board consider a disclosure-only private-company alternative for equity-classified instruments that have “down-round” features. The FASB expects to issue a proposed ASU in the fourth quarter of 2016. For more information, see Deloitte’s September 17, 2015 , journal entry .
Nonemployee share-based payment accounting improvements	The purpose of this project is “to reduce cost and complexity and improve the accounting for nonemployee share-based payment awards issued by public and private companies.”	At its December 16, 2015, meeting, the FASB decided to add this project to its agenda. At its May 4, 2016, meeting, the Board tentatively decided to expand the scope of ASC 718 to include all share-based payment arrangements related to acquiring goods and services from nonemployees. At its June 15, 2016, meeting, the Board made tentative decisions about transition methods for applying the proposed guidance and disclosures. For more information, see Deloitte’s December 16, 2015 ; May 4, 2016 ; and June 15, 2016 , journal entries.
Revenue recognition: grants and contracts by not-for-profit entities	The purpose of this project is to “improve and clarify existing guidance on revenue recognition of grants and contracts by not-for-profit entities.”	At its April 20, 2016, meeting, the FASB decided to add this project to its technical agenda. Stakeholders raised two main issues: (1) characterizing grants and contracts with governmental agencies and others as (i) reciprocal transactions (exchanges) or (ii) nonreciprocal transactions (contributions) and (2) differentiating between conditions and restrictions for nonreciprocal transactions. At its June 15, 2016, meeting, the Board discussed the first of these issues and directed the staff to further explore an approach that would require not-for-profit entities to consider a grant (or similar contract) a reciprocal transaction in certain specified situations. On August 31, 2016, the Board discussed how to differentiate between conditions and restrictions for nonreciprocal transactions. No decisions were made. For more information, see Deloitte’s June 16, 2016 , journal entry .
Share-based payments: scope of modification accounting in ASC 718	This project is intended to reduce the cost and complexity of applying modification accounting in ASC 718.	On August 31, 2016, the Board decided to add this project to its agenda to address when changes to share-based payment awards are within the scope of modification accounting in ASC 718.

Subsequent accounting for goodwill for public business entities and not-for-profit entities	The objective of this project is to “evaluate whether additional changes need to be made to the subsequent accounting for goodwill beyond any changes to the impairment test.”	On October 28, 2015, the FASB decided on a phased approach that would simplify the accounting for goodwill for public business entities and not-for-profit entities. This is the second phase. (The purpose of the first phase is to simplify the goodwill impairment test.)
Technical corrections and improvements	The purpose of this project is to “provide regular updates and improvements to the [Codification] based on feedback received from constituents.”	On April 21, 2016, the FASB issued a proposed ASU that would make minor changes to the <i>FASB Accounting Standards Codification</i> . Comments on the proposed ASU were due by July 5, 2016.
Technical corrections and improvements: revenue from contracts with customers	The purpose of the technical corrections and improvements project is to “provide regular updates and improvements to the [Codification] based on feedback received from constituents.”	On May 18, 2016, the Board issued a proposed ASU that would make minor changes to the Board’s new revenue standard, ASU 2014-09. Comments on the proposal were due by July 2, 2016. On August 31, 2016, the Board affirmed its previous decisions on eight of the proposed technical corrections and decided to propose four additional technical corrections. The Board directed the staff to draft a proposed ASU on the additional corrections, which will have a 15-day comment period, for a vote by written ballot. For more information, see Deloitte’s May 19, 2016 , and September 1, 2016 , journal entries.

Presentation and Disclosure Projects

Conceptual framework: presentation	The objective of the conceptual framework project is to develop an improved conceptual framework that provides a sound foundation for developing future accounting standards.	On August 11, 2016, the FASB issued a proposed concepts statement that would add a new chapter on presentation of financial statement information to the FASB’s conceptual framework. Comments are due by November 9, 2016.
Disclosure framework	The disclosure framework project consists of two phases: (1) the FASB’s decision process and (2) the entity’s decision process. The overall objective of the project is to “improve the effectiveness of disclosures in notes to financial statements by clearly communicating the information that is most important to users of each entity’s financial statements. (Although reducing the volume of the notes to financial statements is not the primary focus, the Board hopes that a sharper focus on important information will result in reduced volume in most cases.)”	<p>FASB’s Decision Process</p> <p>On March 4, 2014, the FASB issued an ED of a proposed concepts statement that would add a new chapter to the Board’s conceptual framework for financial reporting that contains a decision process for the Board and its staff to use in determining what disclosures should be required in notes to financial statements. Comments on the ED were due by July 14, 2014. For more information, see Deloitte’s March 6, 2014, Heads Up. On September 24, 2015, the FASB issued an ED of proposed amendments to chapter 3 of Concepts Statement 8 that would add a statement that materiality is a legal concept and include a brief summary of the U.S. Supreme Court’s definition of materiality.</p> <p>Entity’s Decision Process</p> <p>On September 24, 2015, the FASB issued a proposed ASU that would amend the Codification to indicate that the omission of disclosures about immaterial information is not an accounting error. The proposal notes that materiality is a legal concept that should be applied to assess quantitative and qualitative disclosures individually and in the aggregate in the context of the financial statements taken as a whole. For more information, see Deloitte’s September 28, 2015, Heads Up.</p> <p>At its March 2, 2016, meeting, the FASB discussed comments received on the proposed ASU. No decisions were made.</p>

Disclosure framework: disclosure review — defined benefit plans	The purpose of this project is to improve the effectiveness of disclosure requirements that apply to defined benefit plans.	On January 26, 2016, the FASB issued a proposed ASU that would modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. Comments on the proposal were due by April 25, 2016. For more information, see Deloitte's January 28, 2016, Heads Up . At its July 13, 2016, meeting, the FASB discussed feedback on its proposed ASU and directed its staff to conduct additional research.
Disclosure framework: disclosure review — fair value measurement	The purpose of this project is to improve the effectiveness of fair value measurement disclosures.	On December 3, 2015, the FASB issued a proposed ASU that would modify the disclosure requirements related to fair value measurement. Comments were due by February 29, 2016. At its June 1, 2016, meeting, the FASB discussed comments received on its proposed ASU and directed its staff to reach out to investors and other financial statement users regarding the proposal. For more information, see Deloitte's December 8, 2015, Heads Up .
Disclosure framework: disclosure review — income taxes	The purpose of this project is to improve the effectiveness of income tax disclosures.	On June 26, 2016, the FASB released a proposed ASU that would modify existing and add new income tax disclosure requirements. The proposed requirements include describing an enacted change in tax law; disaggregating certain income tax information between foreign and domestic; explaining the circumstances that caused a change in assertion about the indefinite reinvestment of undistributed foreign earnings; and disclosing the aggregate of cash, cash equivalents, and marketable securities held by foreign subsidiaries. Comments on the proposed ASU are due by September 30, 2016. For more information, see Deloitte's July 29, 2016, Heads Up .
Disclosure framework: interim reporting	The purpose of this project is to improve the effectiveness of interim disclosures.	At its May 28, 2014, meeting, the FASB decided to amend ASC 270 "to reflect that disclosures about matters required to be set forth in annual financial statements should be provided on an updated basis in the interim report if there is a substantial likelihood that the updated information would be viewed by a reasonable investor as significantly altering the 'total mix' of information available to the investor."
Disclosure framework: inventory	The purpose of this project is to improve the effectiveness of inventory disclosures.	On January 7, 2015, the FASB directed its staff "to begin pre-agenda research on a potential project related to disclosure requirements for [ASC] 705 and other Topics containing guidance on cost of sales or services." At its July 27, 2016, meeting, the FASB discussed the results from outreach and research on potential disclosure requirements and directed its staff to conduct additional research. On August 24, 2016, the Board continued discussing potential changes and next steps. No decisions were made.
Employee benefit plan master trust reporting (EITF Issue 16-B)	The purpose of this project is to improve the presentation and disclosure guidance for employee benefit plans that have investments held in master trusts.	On July 28, 2016, the FASB issued a proposed ASU in response to the EITF consensus-for-exposure on employee benefit plans' presentation and disclosures related to interests in a master trust. Comments on the proposed ASU are due by September 26, 2016. For more information, see Deloitte's June 2016 EITF Snapshot .

Financial statements of not-for-profit entities (phase 1)	<p>The purpose of this project is to “reexamine existing standards for financial statement presentation by not-for-profit entities, focusing on improving:</p> <ol style="list-style-type: none"> 1. Net asset classification requirements 2. Information provided in financial statements and notes about liquidity, financial performance, and cash flows.” 	<p>On August 18, 2016, the FASB issued ASU 2016-14, which simplifies and improves how a not-for-profit organization classifies its net assets, as well as the information it presents in financial statements and notes about its liquidity, financial performance, and cash flows. The ASU is effective for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. Early application is permitted.</p>
Financial statements of not-for-profit entities (phase 2)	<p>The purpose of this project is to “reexamine existing standards for financial statement presentation by not-for-profit entities.”</p>	<p>The FASB issued a proposed ASU on April 22, 2015, on which comments were due by August 20, 2015. On October 28, 2015, the FASB discussed feedback received on the proposal and decided to split the project into two phases. The Board completed the first phase on August 18, 2016, when it issued ASU 2016-14, which simplifies and improves how a not-for-profit organization classifies its net assets, as well as the information it presents in financial statements and notes about its liquidity, financial performance, and cash flows.</p> <p>ASU 2016-14 indicates that the second phase of the project is “expected to address more protracted issues surrounding whether and how to define the term <i>operations</i> and align measures of operations (or financial performance) as presented in a statement of activities with measures of operations in a statement of cash flows.”</p>
Government assistance disclosures	<p>The purpose of this project is to “develop disclosure requirements about government assistance that improves the content, quality and comparability of financial information and financial statements and that is responsive to the emerging issues in the changing financial and economic environment in which reporting entities operate.”</p>	<p>On November 12, 2015, the FASB issued a proposed ASU that would increase financial reporting transparency by requiring specific disclosures about government assistance received by businesses. The objective of the proposed disclosure requirements is to enable financial statement users to better assess (1) the nature of the government assistance, (2) the accounting policies for the government assistance, (3) the impact of the government assistance on the financial statements, and (4) the significant terms and conditions of the government assistance arrangements. Comments on the proposed ASU were due by February 10, 2016.</p> <p>At its June 8, 2016, meeting, the FASB made tentative decisions about the project’s scope, whether to require disclosures about government assistance received but not recognized directly in the financial statements, and omission of information when restrictions preclude an entity from disclosing the information required. The Board will continue its redeliberations at a future meeting. For more information, see Deloitte’s November 20, 2015, Heads Up and June 14, 2016, journal entry.</p>

<p>Improving the presentation of net periodic pension cost and net periodic postretirement benefit cost</p>	<p>The purpose of this project is to “simplify and improve the reporting of net periodic pension cost and net periodic postretirement benefit cost (‘net benefit cost’).”</p>	<p>On January 26, 2016, the FASB issued a proposed ASU that would require an entity to (1) disaggregate the current service cost component from the other components of net benefit cost and present it with other current compensation costs for the related employees in the income statement and (2) present the remaining components of net benefit cost elsewhere in the income statement and outside of income from operations, if such a subtotal is presented. In addition, the proposal would limit the portion of net benefit cost eligible for capitalization (e.g., as part of inventory or property, plant, and equipment) to the service cost component. Comments on the proposed ASU were due by April 25, 2016. On August 24, 2016, the Board discussed a summary of the comments it received on the proposed ASU. No decisions were made. For more information, see Deloitte’s January 28, 2016, Heads Up.</p>
<p>Restricted cash (EITF Issue 16-A)</p>	<p>The purpose of this project is to clarify the classification and presentation of changes in restricted cash in the statement of cash flows.</p>	<p>At its March 3, 2016, meeting, the EITF reached a consensus-for-exposure that an entity would include, in its cash and cash-equivalent balances in the statement of cash flows, amounts that are classified as restricted cash and restricted cash equivalents. Further, the Task Force decided that an entity would be required to reconcile, either in the statement of cash flows or in the financial statement footnotes, the cash and cash-equivalent amounts in the statement of cash flows to the amounts in the statement of financial condition. In addition, an entity would be required to disclose the nature and types of restrictions on the amounts deemed to be restricted cash and restricted cash equivalents. The Task Force decided not to define restricted cash and restricted cash equivalents. The Task Force decided that the guidance would be applied retrospectively to all periods presented.</p>
<p>Simplifying the balance sheet classification of debt</p>	<p>The purpose of this project is to “reduce cost and complexity by replacing the fact-pattern specific guidance in GAAP with a principle to classify debt as current or noncurrent based on the contractual terms of a debt arrangement and an entity’s current compliance with debt covenants.”</p>	<p>On April 28, 2016, the FASB issued a proposed ASU in response to the EITF’s consensus-for-exposure. Comments on the proposed ASU were due by June 27, 2016. For more information, see Deloitte’s March 2016 EITF Snapshot.</p> <p>At its January 28, 2015, meeting, the FASB tentatively decided to propose a new, principles-oriented approach for classifying debt as either current or noncurrent in an entity’s balance sheet. Further, the Board tentatively decided that an entity should classify debt as noncurrent when either or both of the following conditions are met: (1) the “liability is due to be settled more than 12 months (or beyond the operating cycle)” — whichever is greater — “after the reporting period” or (2) “the entity has a right to defer settlement of the liability for at least 12 months (or beyond its operating cycle [whichever is greater]) after the reporting period.” The Board also decided that the meaning of “right to defer” would be based on contractual legal rights rather than on the intentions of the borrower or lender. The presentation assessment would be performed as of the reporting date.</p> <p>At its July 29, 2015, meeting, the FASB made tentative decisions related to scope, subjective acceleration clauses, waivers of debt covenant violations, recurring disclosures, and transition. In addition, the Board directed the staff to prepare a proposed ASU for a vote by written ballot. The FASB expects to publish the proposed ASU in the fourth quarter of 2016. For more information, see Deloitte’s January 29, 2015, and July 30, 2015, journal entries.</p>

Statement of cash flows: classification of certain cash receipts and cash payments (EITF Issue 15-F)	The purpose of this project was “to reduce diversity in practice in financial reporting by clarifying certain existing principles in [ASC 230].”	On August 26, 2016, the FASB issued ASU 2016-15 in response to the final consensus reached by the EITF on Issue 15-F at its June 10, 2016, meeting. The ASU addresses eight cash flow classification issues that have been creating diversity in practice. The amendments are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted. For more information, see Deloitte’s June 2016 EITF Snapshot .

FASB/EITF	Affects	Status
Final Guidance		
ASU 2016-15, <i>Classification of Certain Cash Receipts and Cash Payments</i> — a consensus of the FASB Emerging Issues Task Force (issued August 26, 2016)	All entities.	For public business entities, the guidance in the ASU is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities, it is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted for all entities. Entities must apply the guidance retrospectively to all periods presented but may apply it prospectively from the earliest date practicable if retrospective application would be impracticable.
ASU 2016-14, <i>Presentation of Financial Statements of Not-for-Profit Entities</i> (issued August 18, 2016)	Not-for-profit entities.	Effective for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. Application to interim financial statements is permitted but not required in the initial year of application. Early application is permitted. The amendments in the ASU should be initially adopted only for an annual fiscal period or for the first interim period within the fiscal year of adoption.
ASU 2016-13, <i>Measurement of Credit Losses on Financial Instruments</i> (issued June 16, 2016)	Entities holding financial assets and net investments in leases that are not accounted for at fair value through net income. The amendments affect loans, debt securities, trade receivables, net investments in leases, off-balance-sheet credit exposures, reinsurance receivables, and any other financial assets not excluded from the scope that have the contractual right to receive cash.	For public business entities that are SEC filers, the amendments in the ASU are effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. For all other public business entities, the amendments in the ASU are effective for fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. For all other entities, including not-for-profit entities and employee benefit plans within the scope of ASC 960 through ASC 965 on plan accounting, the amendments in the ASU are effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021.
ASU 2016-12, <i>Revenue From Contracts With Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients</i> (issued May 9, 2016)	All entities.	See status column for ASU 2014-09 below.
ASU 2016-11, <i>Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting</i> (issued May 2, 2016)	All entities.	Effective at the same time as ASU 2014-09 and ASU 2014-16.
ASU 2016-10, <i>Identifying Performance Obligations and Licensing</i> (issued April 14, 2016)	All entities.	See status column for ASU 2014-09 below.

ASU 2016-09, <i>Improvements to Employee Share-Based Payment Accounting</i> (issued March 30, 2016)	Entities that issue share-based payment awards to their employees.	For public business entities, the amendments in the ASU are effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2016. For all other entities, the amendments are effective for annual periods beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period.
ASU 2016-08, <i>Principal Versus Agent Considerations (Reporting Revenue Gross Versus Net)</i> (issued March 17, 2016)	All entities.	See status column for ASU 2014-09 below.
ASU 2016-07, <i>Simplifying the Transition to the Equity Method of Accounting</i> (issued March 15, 2016)	Entities that have an investment that becomes qualified for the equity method of accounting as a result of an increase in the level of ownership interest or degree of influence.	All entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. The amendments should be applied prospectively upon their effective date to increases in the level of ownership interest or degree of influence that result in the adoption of the equity method. Early adoption is permitted.
ASU 2016-06, <i>Contingent Put and Call Options in Debt Instruments</i> — a consensus of the FASB Emerging Issues Task Force (issued March 14, 2016)	Entities that are issuers of or investors in debt instruments (or hybrid financial instruments that are determined to have a debt host) with embedded call (put) options.	For public business entities, the amendments in the ASU are effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. For all other entities, the amendments in the ASU are effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period.
ASU 2016-05, <i>Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships</i> — a consensus of the FASB Emerging Issues Task Force (issued March 10, 2016)	Reporting entities for which there is a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under ASC 815.	For public business entities, the amendments in the ASU are effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. For all other entities, the amendments in the ASU are effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. Early adoption is permitted, including adoption in an interim period.
ASU 2016-04, <i>Recognition of Breakage for Certain Prepaid Stored-Value Products</i> — a consensus of the FASB Emerging Issues Task Force (issued March 8, 2016)	Entities that offer certain prepaid stored value products (e.g., prepaid gift cards issued on a specific payment network and redeemable at network-accepting merchant locations, prepaid telecommunication cards, and traveler's checks).	Effective for public business entities, certain not-for-profit entities, and certain employee benefit plans for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early application is permitted, including adoption in an interim period.
ASU 2016-03, <i>Intangibles — Goodwill and Other (Topic 350); Business Combinations (Topic 805); Consolidation (Topic 810); and Derivatives and Hedging (Topic 815): Effective Date and Transition Guidance</i> — a consensus of the Private Company Council (issued March 7, 2016)	Private entities.	Effective upon issuance.

ASU 2016-02, <i>Leases</i> (issued February 25, 2016)	All entities.	<p>Effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, for any of the following:</p> <p>Public business entities.</p> <p>Not-for-profit entities that have issued, or are a conduit bond obligor for, securities that are traded, listed, or quoted on an exchange or an over-the-counter market.</p> <p>Employee benefit plans that file financial statements with the SEC.</p> <p>For all other entities, the amendments in the ASU are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020.</p> <p>Early application of the amendments in the ASU is permitted for all entities.</p>
ASU 2016-01, <i>Recognition and Measurement of Financial Assets and Financial Liabilities</i> (issued January 5, 2016)	Entities that hold financial assets or owe financial liabilities.	<p>For public business entities, the amendments in the ASU are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities, including not-for-profit entities and employee benefit plans within the scope of ASC 960 through ASC 965 on plan accounting, the amendments in the ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. All entities that are not public business entities may adopt the amendments in the ASU earlier as of the fiscal years beginning after December 15, 2017, including interim periods within those fiscal years.</p>
ASU 2015-17, <i>Balance Sheet Classification of Deferred Taxes</i> (issued November 20, 2015)	All entities.	<p>For public business entities, the amendments in the ASU are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. For all other entities, the amendments in the ASU are effective for financial statements issued for annual periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Early application is permitted for all entities as of the beginning of an interim or annual reporting period.</p>

ASU 2015-16, <i>Simplifying the Accounting for Measurement-Period Adjustments</i> (issued September 25, 2015)	Entities that have reported provisional amounts for items in a business combination for which the accounting is incomplete by the end of the reporting period in which the combination occurs and during the measurement period have an adjustment to provisional amounts recognized.	For public business entities, the amendments in the ASU are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments in the ASU should be applied prospectively to adjustments to provisional amounts that occur after the effective date of the ASU; early adoption is permitted for financial statements that have not been issued. For all other entities, the amendments in the ASU are effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The amendments in the ASU should be applied prospectively to adjustments to provisional amounts that occur after the effective date of the ASU; early adoption is permitted for financial statements that have not yet been made available for issuance.
ASU 2015-14, <i>Revenue From Contracts With Customers (Topic 606): Deferral of the Effective Date</i> (issued August 12, 2015)	All entities.	See status column for ASU 2014-09 below.

Technical Library and US GAAP Plus

Deloitte makes available, on a subscription basis, access to its online library of accounting and financial disclosure literature. Called Technical Library: The Deloitte Accounting Research Tool, the library includes material from the FASB, EITF, AICPA, PCAOB, IASB, and SEC, in addition to Deloitte's own accounting and SEC manuals and other interpretive accounting and SEC guidance.

Updated every business day, Technical Library has an intuitive design and navigation system that, together with its powerful search features, enable users to quickly locate information anytime, from any computer. Technical Library subscribers also receive *Technically Speaking*, the weekly publication that highlights recent additions to the library. For more information, including subscription details and an online demonstration, visit www.deloitte.com/us/techlibrary.

In addition, be sure to visit [US GAAP Plus](#), our free Web site that features accounting news, information, and publications with a U.S. GAAP focus. It contains articles on FASB activities and updates to the *FASB Accounting Standards Codification*[™] as well as developments of other U.S. and international standard setters and regulators, such as the PCAOB, AICPA, SEC, IASB, and IFRS Interpretations Committee. Check it out today!

Conclusions of the FASB, GASB, IASB, and IFRS Interpretations Committee are subject to change at future meetings and generally do not affect current accounting requirements until an official position (e.g., Accounting Standards Update or IFRS) is issued. Official positions are determined only after extensive deliberation and due process, including a formal vote.

Further information about the standard setters can be found on their respective Web sites as follows: www.fasb.org (FASB); www.fasb.org/eitf/agenda.shtml (EITF); www.aicpa.org (AICPA); www.sec.gov (SEC); <https://pcaobus.org/Pages/default.aspx> (PCAOB); www.fasab.gov (FASAB); www.gasb.org (GASB); and www.ifrs.org — or on www.iasplus.com/en (IASB and IFRS Interpretations Committee).
