Quarterly Accounting Roundup

by Magnus Orrell and Joseph Renouf, Deloitte & Touche LLP

Welcome to *Quarterly Accounting Roundup: Second Quarter — 2020*. The economic implications related to coronavirus disease 2019 (“COVID-19”) continued to dominate the accounting and financial reporting headlines in the second quarter of 2020. Entities experienced conditions often associated with a general economic downturn, including, but not limited to, financial market volatility and erosion of market value, deteriorating credit, liquidity concerns, further increases in government intervention, increasing unemployment, broad declines in consumer discretionary spending, increasing inventory levels, reductions in production because of decreased demand and supply constraints, layoffs and furloughs, and other restructuring activities. To help deal with the effects of the pandemic, Congress enacted a number of laws, including the Coronavirus Aid, Relief, and Economic Security Act (the “CARES Act”); the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020; the Families First Coronavirus Response Act; and the Paycheck Protection Program and Health Care Enactment Act.

The SEC has also continued to take actions in response to the pandemic. For example, the chairman and chief accountant of the SEC have both released statements concerning the pandemic, the Division of Corporation Finance has issued Disclosure Guidance Topic 9A,¹ and several SEC Divisions have issued guidance on various COVID-19-related topics, including interpretations related to the broker-dealer financial responsibility rules. Further, the SEC adopted a final rule that amends the disclosure requirements for acquisitions and dispositions of businesses.

Effective Dates

FASB Issues ASU Providing Limited Effective-Date Delays for Guidance on Revenue and Leases

Affects: All entities.

Summary: On June 3, 2020, the FASB issued [ASU 2020-05](#),³ which amends the effective dates of the Board's standards on revenue (ASC 606) and leasing (ASC 842) to give immediate relief to certain entities as a result of the widespread adverse economic effects and business disruptions caused by the COVID-19 pandemic. Specifically, the Board deferred the effective dates of (1) ASC 606 for private companies and private not-for-profit (NFP) entities and (2) ASC 842 for private companies, private NFP entities, and public NFP entities. The deferrals apply only if those entities have not yet issued their financial statements (or made their financial statements available for issuance) as of June 3, 2020.

While the Board acknowledged that it will continue to evaluate the effective dates of its other standards, the ASC 606 and ASC 842 deferrals were a top priority given the upcoming adoption deadlines for private entities and public NFP entities.

Next Steps: For information about effective date and transition, see [Appendix A](#).

International

IASB Amends Leasing Standard to Help Lessees Account for Rent Concessions Associated With COVID-19

Affects: Entities reporting under IFRS Standards.

Summary: On May 28, 2020, the International Accounting Standards Board (IASB®) released an amendment to IFRS 16⁴ to facilitate a lessee's accounting for rent concessions related to COVID-19 (e.g., rent holidays, temporary rent reductions). Specifically, the amendment "exempts lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the covid-19 pandemic are lease modifications and allows lessees to account for such rent concessions as if they were not lease modifications."

Next Steps: The amendment is effective for rent concessions related to COVID-19 that decrease rent payments due on or before June 30, 2021.

Other Resources: For more information, see the [press release](#) on the IASB's Web site.

IASB Makes Minor Amendments to Certain IFRS Standards

Affects: Entities reporting under IFRS Standards.

Summary: On May 14, 2020, the IASB released a package of amendments that make minor clarifications and other corrections to the following IFRS Standards:

- IFRS 3⁵ — A reference to the IASB's conceptual framework is being updated; no changes are being made to the accounting requirements for business combinations.
- IAS 16⁶ — These amendments "prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss."
- IAS 37⁷ — Clarification of the "costs a company includes when assessing whether a contract will be loss-making."

In addition, the IASB made minor changes to certain IFRS Standards as part of its annual improvements process.

Next Steps: All of the amendments will become effective on January 1, 2022.

Affects: All entities.

Summary: On June 10, 2020, the AICPA released a [Q&A](#)⁹ that addresses how nongovernmental entities account for forgivable loans received as part of the Small Business Administration Paycheck Protection Program. The Q&A concludes, in part, that “[r]egardless of whether a nongovernmental entity expects to repay the PPP loan or believes it represents, in substance, a grant that is expected to be forgiven, it may account for the loan as a financial liability in accordance with FASB ASC 470 and accrue interest in accordance with the interest method under FASB ASC 835-30.”

Coronavirus

Financial Reporting Considerations Related to COVID-19 and an Economic Downturn

Affects: All entities.

Summary: The COVID-19 pandemic is affecting major economic and financial markets, and virtually all industries and governments are facing challenges associated with the economic conditions resulting from efforts to address it. For example, many entities in the travel, hospitality, leisure, and retail industries have seen sharp declines in revenues due to regulatory and organizational mandates (e.g., “shelter in place” mandates, school closures) and voluntary changes in consumer behavior (e.g., “social distancing”).

In this environment, entities are experiencing conditions often associated with a general economic downturn, including, but not limited to, financial market volatility and erosion of market value, deteriorating credit, liquidity concerns, further increases in government intervention, increasing unemployment, broad declines in consumer discretionary spending, increasing inventory levels, reductions in production because of decreased demand and supply constraints, layoffs and furloughs, and other restructuring activities. The continuation of these circumstances could have a prolonged negative impact on an entity's financial condition and results.

To help the nation respond to the pandemic, the U.S. Congress has passed a series of laws. The most significant of these is the [Coronavirus Aid, Relief, and Economic Security Act](#) (the “CARES Act”), which provides relief from certain accounting and financial reporting requirements under U.S. GAAP. Among other provisions, the CARES Act provides \$2.2 trillion of economy-wide financial stimulus in the form of financial aid to individuals, businesses, nonprofit entities, states, and municipalities. Other COVID-19-related legislation passed by Congress includes the following:

- The [Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020](#) (enacted March 6, 2020), which provides \$7.8 billion in emergency funding for the development and manufacture of vaccines and other supplies; support to state, local, and tribal public health agencies; loans to affected small businesses; evacuations

⁹ AICPA Technical Q&As Section 3200.18, “Borrower Accounting for a Forgivable Loan Received Under the Small Business Administration Paycheck Protection Program.”

and emergency preparedness activities; and humanitarian assistance for affected countries.

- The [Families First Coronavirus Response Act](#) (enacted March 18, 2020), which is intended to give relief to individuals affected by COVID-19.
- The [Paycheck Protection Program and Health Care Enactment Act](#), which provides an additional \$484 billion in funding for CARES Act programs.
